

REGIONAL LAND USE MAPS

Attachment B provides a countywide summary of the two updated land use maps for GP2020:

List of Figures:

B-1: Draft Land Use Map - August 2006

B-2: Board Alternative Map - August 2006

Both August 2006 maps reflect updates to the June 2005 maps including jurisdictional boundaries (annexations by adjacent cities), Tribal Lands, and publicly owned Open Space. In addition to these changes, the August 2006 Draft Land Use Map includes proposed land use modifications made primarily to reduce forecast traffic congestion in select areas within the unincorporated County. Attachment C provides community-level information on the proposed land use modifications, which are located in the following communities:

- **North County:** North County Metro, Rainbow, Valley Center
- **East County:** Alpine, Lakeside, Valle de Oro
- **Backcountry:** Mountain Empire (Potrero, Tecate)

The August 2006 Board Alternative Map does not include the recommended traffic related land use changes.
